

THE JOY OF LEARNING WITH LIGHT...

Create unlimited opportunities for excitement, fascination and wonder with innovative, light-up resources, carefully developed with experts to amaze young children and make learning memorable.

Whether used individually or combined to create an immersive, multisensory environment, the glow range creates unexpected moments of joy and surprise, ensuring children are happy and engaged, ready to explore STEAM, test ideas and have fun!

THE JOY OF LEARNING WITH LIGHT...

Create unlimited opportunities for excitement, fascination and wonder with innovative, light-up resources, carefully developed with experts to amaze young children and make learning memorable.

Whether used individually or combined to create an immersive, multisensory environment, the glow range creates unexpected moments of joy and surprise, ensuring children are happy and engaged, ready to explore STEAM, test ideas and have fun!

1. GLOW PEOPLE

EL46409

This set of glowing small world characters are perfect for support children's imaginative play, promoting their creativity and early literacy skills as they build up story lines and narratives. Children can use these characters to become anything from their imagination, an illuminated green alien from outer space or a bright blue superhero with magical powers. With a press of the button children can change the colour or have them rotate through instead.

2. SMALL GLOW CROSSES 12PK

EL45136

Children can explore and experiment mathematically with these shapes, working on sequencing, patterns, classifying, and sorting. Young children can enjoy discovering and manipulating the pieces to build and balance whilst engaging with the light stimulus and exploring cause and effect. 12.7cm.

NEW

1. LARGE GLOW CROSSES 12PK

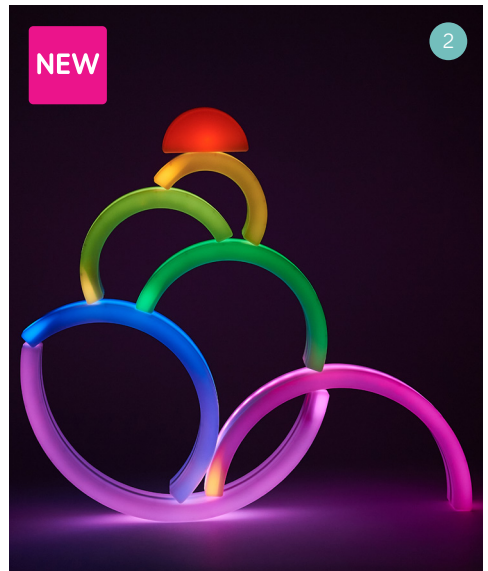

EL45131

Unique, glowing crosses that stack, nestle and tessellate, offering engaging and versatile possibilities. Colourful manipulatives that will delight, challenge and offer something different to construction and loose parts play. Adding a sense of challenge, see how children manipulate, balance and manoeuvre these crosses into position. With a simple press of the button, watch as these illuminate. 20cm.

2. RAINBOW GLOW ARCHES

EL45134

A collection of unique, glowing arches that stack and tessellate together, offering versatile and engaging explorative possibilities. Babies and toddlers may simply just explore the shapes, beginning to manipulate the pieces as they learn to stack and create, whilst older children can tessellate these arches whilst combining them with additional loose part materials as they build and balance to create structures.

1

NEW

1. ACTIVE WORLD TRAY LIGHT PANEL

AV46657

Bring your active world adventures to life with a 3 stage dimmable light panel, ideal for early exploration with colour and transparency. Nurture investigative play and scientific enquiry by embedding this simple yet wonderful technology into your lessons.

1. GLOW CYLINDER CONNECTORS 18 PK

EL46672

Create glowing structures, caves and tunnels by using these connectors together with the Glow Cylinders. These simple pieces can further children's exploration and imagination as they expertly combine to create from their minds. Children can explore early mathematical elements as they work through trial and error to create. How many cylinders long does it need to be? They may want to look at simple sequencing to extend their knowledge, one yellow cylinder, two pink cylinders to create. Suitable for 3 years+.

2. GLOW ARCHES 12 PK

EL11340

A collection of unique, glowing arches that stack and tessellate together, offering versatile and engaging explorative possibilities. These holed arches can engage children with developmentally appropriate technology where they can explore cause and effect through the wonders of light.

3. MINI MOBILE PHONES

EL11835

A set of 4 rechargeable, tactile mobile phones that enable children to call each phone, featuring touch activated number buttons. This is a great resource to get children talking, being confident and independent in communicating collaboratively or independently.

EARLY YEARS IMMERSIVE PROJECTOR

An awe inspiring, illuminated, safe, rechargeable dome that transforms walls and ceilings into a canvas for magical light and shadows.

MORE THAN LIGHT AND SHADOW

The Immersive Projector is a safe, robust device that with a simple switch creates an atmospheric and immersive light effect. Simply place a rich variety of materials on and around the strong polycarbonate dome and see the shimmering shades and shadows emerge. Children can experiment, explore, and discover with the light effects, which enriches engagement. It is truly a versatile resource offering so many learning possibilities.

STEAM BASED LEARNING

Spark their curiosity and learn through a multitude of investigations. Manipulate objects and see what surprising effects can be created. Enrich vocabularies, create catalysts for STEAM based learning and inspire imaginations to soar. It is not just about creating pretty patterns and effects, but the power of light and shadows to support, enrich and enable learning in a powerful and unique way.

This is such an open ended and versatile resource and can be used independently by the children or for collaborative tasks. It is all about play and child led learning, where they are the architect. It is about experiential, hands-on STEAM learning. Imagine a starry constellation, under the sea or other amazing locations reflected on the walls. Perhaps you will wander amidst dinosaurs!

1. EARLY YEARS IMMERSIVE PROJECTOR

EY11864

An awe inspiring, illuminated, safe, rechargeable dome that transforms walls and ceilings into a canvas for magical light and shadows. Place a rich variety of materials on and around the strong polycarbonate dome and see the shimmering shades and shadows emerge. Manipulate objects and see what surprising effects can be created. Enrich vocabularies, create catalysts for STEAM based learning and inspire imaginations to soar. Suitable for 10mths+. Diameter 65cm. Made from polycarbonate, silicone and wood.

1. EARLY YEARS PROJECTOR

EY11674

An exciting and unique projector, designed by TTS specifically to enable children to independently and safely create, build and explore whilst engaging with magical, awe inspiring shadow and light scenarios. Simply switch on the projector and place it wherever you wish to create a light effect on the wall. It can be positioned on blocks, a table and on the floor, depending on the size of the light space you wish to work with. Children can place, balance, position and build all kinds of art pieces and then see how they are transformed into imaginative shadow works. Suitable for age 3 years and up. H21 x W28,6 x D21cm.

1. COLOUR CHANGING TORCHES

SC10000 | 10PK

Wear and experiment with these take anywhere, colour changing torch heads. Attach to the included wrist and head bands to allow hands free exploration. A button on each torch, will change the LED from white to red, blue or green. Pack of 10.

SC00117 | 6PK

The rechargeable handheld LED torches are simple to use and come with a useful charging hub for storage. The LEDs provide a constant brightness for up to 2 hours, recharge in the hub once the battery is low. Pack of 6.

1. STEAM DISCOVERY CENTRE

EY11734

Interact with this giant scales like structure investigating, experimenting, manoeuvring, posting and balancing a range of materials including glow resources to make a dramatic, engaging impact. Children love playing with this transparent unit that looks amazing in the light. It has channels to roll things along, places to hang and post things. It supports a STEAM based enquiry approach to learning as the children problem solve and employ critical thinking skills. Suitable for 10 months and up. H70 x W108cm.

2. TTS LIGHT UP COLLECTOR'S BUCKETS COMING SOON

EY11868 | SINGLE

Enrich learning with these Imaginative, stacking, rechargeable, transporting containers that light up maths, messy play, water, sand, STEAM and sensory learning experiences in an illuminating, magical way. Captivate children with these glow vessels. Explore, collect, build and count. Robust, for indoors and out, dry and wet materials, sandpits, with water channeling, construction materials, on the STEAM centre, or on a mud kitchen. Suitable for 3 to 11 years.

1. SHADOW CUBE

EY11847

Piece these sturdy cylinders together in different configurations to make various shapes in construction activities and with the projectors for shadowy effects. A bumper set of connectors and tubes which can be pieced together and used for an array of activities. Make frames and utilise with the Immersive projector to make the walls your canvas for patterns and shadows. Made from plastic.

1

1. SENSORY ICT GLOW CONSTRUCTION BLOCKS 12PK

EY06793 | 12PK

A set of construction bricks in two sizes that light up and change colour when they are turned. Perfect for using ICT to learn sequencing. Each cube requires 2 x AA batteries (not included). Suitable from birth. Made from plastic. Pack of 12.

2. LIGHT UP GLOW CONSTRUCTION BRICKS 12PK

EY10970 | 12PK

Illuminate your block play with this innovative set of 12 rechargeable, sturdy bricks that will light up when shaken. Underpin ICT into your early STEAM play as the children create glowing towers, constructions and patterns. Each brick stays illuminated for 3 minutes, then will need tapping again to relight. Suitable for 10 months and up. Made from plastic. Pack of 12.

3. LIGHT UP POSTING POT

EY11135

Children will love posting, positioning and balancing resources. Simply slide the pieces together and you have a unit ready to use. There are various cut-outs of different shapes to experiment and explore with. The unit can be utilised with all kinds of loose parts. Try different spheres or natural materials. Made from acrylic.

4. LIGHT UP PHONES 4PK

EY10980 | 4PK

A set of 4 rechargeable, tactile phones that feature touch activated number buttons, incorporating technology and communication skills to encourage lively conversations and role play scenarios. Who will you call? Will it be the garage, the dentist or the queen? A great resource for experimenting, exploring and making connections. Age: 10 months+ Pack of 4.

1. LIGHT UP GLOW CYLINDERS 12PK

EY11108 | 12PK

A truly versatile and engaging set. Learn about cause and effect and stimulus response as you tap the cylinders and see them light up (stay lit for 3 minutes). Children will delight in using this glowing collection in their schema play as they roll them and post them. Age 10 months+ Diameter 33mm. Length 212mm. Pack of 12.

2. STACK AND BUILD GLOW BLOCKS 9PK

EY11702 | 9PK

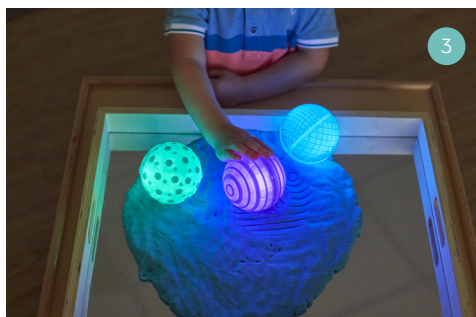

A set of 9 sturdy, rechargeable bricks that light up, offering illuminated possibilities for construction, loose parts play, number tasks, schema interests and sensory activities. Technology really enhances the learning here as the blocks can be made to glow by just pressing a button. See the shapes take on a magical glow for added engagement and creativity. The child learns about cause and effect, stimulus response and makes key connections. Suitable for ages 10 months and up. H30 x W38 x L65cm. Pack of 9.

3. LIGHT UP TACTILE GLOW SPHERES 6PK

EY10974 | 6PK

A set of light-up, textured balls with intricate designs, that can be used for mark-making, fine motor skills, and calming activities. The spheres are rechargeable and are in 3 different designs. They are a great resource for improving hand-eye coordination as children manipulate the spheres around. Simply tap the spheres to transform them into illuminated globes of light, that will stay lit for 60 seconds. Suitable for 10mths+. Diameter 84mm. Pack of 6.

4. LIGHT UP TWIST & TURN SPINNING TOPS

EY10972 | 3PK

Children of all ages will enjoy using this innovative, rechargeable and fascinating collection of three rotating tops, which illuminate when spun. Underpin a range of key skills as children experiment, explore and make discoveries about how they can get the tops to light up, whirl and twirl. Tops illuminate when rotated and change colour depending on direction. Great for curious and investigative babies & toddlers, and for developing their motor skills. Simply twist the tops on a hard surface, and see the resource glow. To charge spinning tops, place on the included docking station. Suitable for age 10 months and up. Suitable for ages up to 5 years. H150mm. Made from plastic. Pack of 3.

1. ROUND GLOW TABLE

EY07231

Add light, colour and wonder to activities with this inspiring glow table. Several children can explore objects and materials together as they stand or sit by this engaging table. Rechargeable by mains adaptor. Accessories not included. Suitable for age 3 years and up. Supplied fully assembled. Multicoloured. Diameter 80cm. Height 56cm. Made from plastic.

3. LIGHT UP TWIST & TURN COG BOARD

EY10971

Watch the cogs light up and glow as you twist and turn! Perfect for a sensory room or dark den. Capture children's imagination with this wooden board, while promoting hand-eye coordination and fine motor skills. Suitable for ages 10 months and up. H250 x L880mm. Made from wood.

2. GIANT SPINNING TOP

EY11701

An amazing, mesmerising rechargeable resource that when spun creates a myriad of light patterns and a gentle soothing sound to captivate, calm and engage. Children will love to rock the spinner back and forth whilst others use gross motor skills to twist and turn it in captivating, sensory environments. Simple switches and made from a robust material for engaging play experiences. Suitable for age 18 months and up. Made from abs.
